## **PRELIMINARY AMENDMENT**

Dear Sir:

Please amend the above-identified application for patent as indicated below. It is noted that the Applicant filed a Continuing Prosecution Application on 4/14/99. Therefore this Amendment is timely submitted in the CPA without a request for extension of time.

## In the Claims

Please add independent claims 18 and 19 as follows:

## 18. (New; independent)

A device for removing gas from gas containing blood, the device comprising:

- a non-rotating cyclone eddy chamber having an inlet thereto and an outlet therefrom, said chamber being shaped for passing gas-containing blood in the form of a cyclone eddy current for producing a centrifugal force that separates the blood into a blood phase in a radially outer cyclone eddy region and a gas phase in a radially inner cyclone eddy current region;
- the cyclone inlet comprising at least one helically circularly extending blood inlet b) channel, the blood inlet channel shaped for narrowing in funnel like manner, at least over part
